

ULTRAGUARD INDUSTRIAL COATINGS

will never

CHALK, BLISTER OR FLAKE

GUARANTEED 10-YEARS

◀ **BEFORE**

AFTER ▶

The surface choice of hotels, municipal pools and swim clubs is also the best choice for your residential pool customers. With UltraGuard you'll never have to paint, sandblast, re-plaster or acid wash again. **UltraGuard is not a pool paint. It is 100% solid polymers. Unlike paints that are 3-mils thick UltraGuard has a thickness of 20-mils – 40-mils.**

Using UltraGuard you can now build on site a one-piece fiberglass pool, any size, any shape and save thousands to a factory manufactured drop in, and **it's 100% green.**
